The Public Health Agency of Canada is actively monitoring the situation regarding the novel coronavirus.

The best way to protect yourself and your community is by preventing the spread of germs.

Wash your hands often, cough and sneeze into your arm, throw out used tissues right away, clean and disinfect shared surfaces and avoid touching your eyes, nose or mouth.

For more information about the novel coronavirus visit Canada.ca/coronavirus or call the Government of Canada's toll free line at **1-833-784-4397**.

A message from the Government of Canada.
